Program Synopsis

Today's business environment may be the first to include three different generations working side by side toward shared economic and commercial goals. For managers and executives, managing multiple generations in the workplace may not be as easy as it sounds.

Each defined generation can have different expectations, communication styles, and perspectives. Nevertheless, adopting a management strategy that addresses the distinctive characteristics of different generations in the workplace can allow employers to harness the respective strengths of their workforce and better compete in the marketplace.

This programme focuses on learning how to understand and build an effective generations at work through their potential and enhance capabilities as a team members to really make an impact and to move forward and quickly using valuable approach to making the improvements and transformations that the team and differences of generation required.
